

## **Logistics Coordinator**

Hampel Corp., a leading plastic thermoformer of custom and proprietary products, is in need of an outstanding Logistics Coordinator, responsible for coordinating all shipments, directing and coordinating program activities designed to provide logistics technology that ensures effective and economical support for the manufacturing and servicing of our products, accessories, systems, and equipment.

This position will be responsible for analyzing contractual commitments, customer specifications, and other data to plan and develop logistical program activities required. Developing and implementing program activities, coordinating efforts of subcontractors, production, and off-site operations (e.g. warehouses), initiating policies, guidelines, work instructions, and information systems to provide and supply logistics support will be integral to the success of this new position. Compiling data on standardization and interchangeability of parts, loading options, pricing, cost control, etc. to expedite logistics activities will be necessary to ensure a systematic approach is reached. Determining logistic support sequences and time phasing, evaluating and resolving problems arising from geographical locations, and other factors, such as environmental and human factors affecting delivery of products will be necessary.

Qualified candidates must have a Bachelor's degree in Business Administration / Operations Management or equivalent. A minimum 5 years experience in a key logistics role within a mfg or consumer products company as well as advanced skills in Microsoft Access, Excel and Word are required.

Hampel offers an attractive salary and benefits package, including medical / dental, matching 401(k), tuition reimbursement, and more. Please express your interest in this opportunity by sending your resume, including salary history, to:
